

GRUPO MUNICIPAL SOCIALISTA

Excma. Sra.:

A tenor de lo que dispone el ROM de este Ayuntamiento y los artículos 14, 15 y 16 del ROF, el concejal que suscribe realiza la siguiente solicitud de información a la que le asiste su cargo, para la que espera respuesta en un plazo no superior a los 5 días establecidos por la norma.

Hemos detectado que, desde el día de ayer (14 de marzo), al iniciar sesión en tu puesto de trabajo, eres informado de cuándo fue la última vez que iniciaste sesión en tu pc.

En mi caso concreto, en la mañana de hoy (15-3-2024), alrededor de las 9 h, al iniciar sesión en mi ordenador, aparece la información de que mi última conexión se produjo esta misma mañana a las 7:48h (se adjunta captura de pantalla).

Dado que yo no he sido quien ha iniciado la sesión de las 7:48h, solicito del servicio municipal de informática que averigüe, y me traslade, la identidad de la persona o dirección ip del equipo desde donde se ha realizado esa conexión, y si la misma se encuentra en dependencias municipales o no.

Al mismo tiempo, solicito conocer, si hay posibilidad de ello, las horas y días en los que se ha iniciado sesión en mi puesto de trabajo desde junio de 2023

Granada, a fecha de la firma electrónica

Jacobo Calvo Ramos
portavoz adjunto

INFORME

Expediente: EI197/2024

Asunto: respuesta a una solicitud de don. Jacobo Calvo Ramos acerca de información de inicios de sesión en su equipo.

Referencia: Secretaría General 3946/2024: escrito con número de registro 221/2024 de D. Jacobo Calvo Ramos, solicitando información sobre 'inicio de sesión desconocido en mi puesto de trabajo'.

En el escrito, se da a conocer que el día 15/03/2024, al iniciar la sesión en el equipo local del peticionario, sobre las 9h, le aparece a don Jacobo Calvo una información relativa a la última sesión que se ha llevado a cabo con anterioridad, mediante el uso de su identificador 6130 en el dominio del Ayuntamiento de Granada, observando el peticionario, que aparece una fecha y hora en la que él no se encontraba presente.

Como respuesta a las dudas planteadas y tras realizar las oportunas investigaciones, desde el área de infraestructura y telecomunicaciones, se le informa que:

1.- La información que por primera vez aparece en su equipo al iniciar sesión ha sido como consecuencia de la aplicación de una política de seguridad implantada a todos los equipos del dominio del Ayuntamiento.

2.- Esta política está incluida dentro de las medidas de seguridad que progresivamente se están implantando, para cumplir los requisitos recomendados por el Esquema Nacional de Seguridad (ENS), para una mayor seguridad del entorno de trabajo.

3.- La información aportada por el mensaje, no hace referencia a los inicios de sesión que se hayan producido en el equipo informático donde el usuario se está conectando, sino que muestran el establecimiento de la última sesión o de la utilización de credenciales para realizar conexiones dentro del dominio.

4.- En el caso presente, se ha podido averiguar que lo indicado en el mensaje se debe a la renovación de credenciales del usuario granada\6031 en el servidor de aplicaciones citrix1, que se usa para ejecutar aplicaciones remotas de contabilidad o firma electrónica.

A tal efecto se acompaña al presente informe, una serie de capturas a fin de reforzar los argumentos que se han detallado anteriormente, como evidencias de que en este caso no se ha producido ningún tipo de violación ni suplantación del usuario en cuestión, aportadas por las aplicaciones de auditoría.

Como se puede observar, la afirmación recogida en el mensaje de bienvenida, es cierta ya que el día 15 de marzo de 2024 a las 7:48:17, se produjo una conexión utilizando las credenciales del usuario, para mantener activa la sesión frente al servidor citrix1.

En la siguiente captura correspondiente al evento producido dentro del servidor mencionado se puede observar, que está provocada por el servicio de comunicación, que permite el acceso o renovación de credenciales del mismo, para permitir la ejecución de las aplicaciones que en él se encuentran instaladas.
